Infant Formula Keeper

Alpha has developed the first product designed to halt infant formula shrink. The Infant Formula Keeper is secure, easy to use and maximizes your display opportunities. Designed to hold all major brands: Similac®, Enfamil® and Good Start®.

Infant Formula Keeper Provides:

- Locking protection for 14.3 oz. canisters
- A unique nesting design that allows merchandise to be stacked
- Clear viewing of package, product information and expiration date
- EAS compatibility

Patented S3 Key

One small, secure, simple-to-use key unlocks the entire line of S3 products.

Infant Formula Fixture

Alpha's unique anti-sweep Infant Formula Fixture features a front-loading gravity feed design that is easy to stock. Designed to hold all major brands: Similac®, Enfamil® and Good Start®.

Infant Formula Fixture Provides:

- An anti-sweep guard that discourages "grab-and-go" theft
- Clear viewing of package graphics, product information and expiration date
- Protection for 14.3 oz. canisters
- A first in, first out stock rotation that guarantees freshness
- A sturdy, rugged steel frame that attaches securely to a retail shelf
